Springer. Paperback. Condition: New. 410 pages. Dimensions: 9.1in. x 6.1in. x 0.7in. The papers contained in this volume were presented at the 12th edition of the International Symposium on String Processing and Information Retrieval (SPIRE), held November 24, 2005, in Buenos Aires, Argentina. They were - lected from 102 papers submitted from 25 countries in response to the Call for Papers.

A total of 27 submissions were accepted as full papers, yielding an acceptance rate of about 26%. In view of the large number of good-quality submissions the conference program also included 17 short papers that also appear in the proceedings. In addition, the Steering Committee invited the following speakers: Prabhakar Raghavan (Yahoo! Research, USA), Paolo Ferragina (University of Pisa, Italy), and Gonzalo Navarro (University of Chile, Chile). Papers solicited for SPIRE 2005 were meant to constitute original contributions to areas such as string processing (dictionary algorithms, text searching, pattern matching, text compression, text mining, natural language processing, and automata-based string processing); information retrieval languages, applications, and evaluation (IR modeling, indexing, ranking and filtering, interface design, visualization, cross-lingual IR systems, multimedia IR, digital libraries, collaborative retrieval, Web-related applications, XML, information retrieval from semi-structured data, text mining).

Reviews

Absolutely essential read publication. it absolutely was written very completely and valuable. It is extremely difficult to leave it before concluding, once you begin to read the book.
