Report on Schedule A; Chemicals, Oils, and Paints

By United States Congress House

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1912 Excerpt: .Black pigments are indispensable in the manufacture of paints, japans, oil enamels, printers ink, paper, and in many other industries. Their value, as that of all other colors, depends on purity of shade, depth, and strength. They are sold either dry or in paste form ground in oil. Blacks are manufactured in this country extensively. The census for 1905 gives the production of blacks as 20,298,385 pounds, but the value given as \$640,701, or very little more than 3 cents per pound, would indicate that this figure represents largely bone black, with little of the finer grades included. BLACK, MADE FROM BONE, IVORY, OR VEGETABLE SUBSTANCE. INCLUDING BONE BLACK AND LAMPBLACK, DRY OR GROUND IN OIL OR WATER. Paragraph 46.--CHROMIUM COLORS. Chrome yellow, chrome green, and all other chromium colors in the manufacture oi which lead and bichromate of potash or soda are used, in pulp,...
